## INVITATION

Dear colleagues,

The forthcoming III International scientific congress “**Innovations 2017**”, which will take place from June 19 to June 22, 2017 in the city of Varna, is aimed at giving place of meeting for scientists of different countries, where they can represent their scientific achievements and discuss the matters of innovations.

The human development has been always based on the ideas. They are moving forward the industry and the society as a whole.

We want to be a little part of the efforts at technological progress, at implementation of the innovative ideas into products and services, which create growth and working places for the constitution of one more just and fair society.

The congress will give the possibility of new acquaintances and friendships, which will boost the formation of new ideas.

We invite also the industrial companies as to participate in the discussions on the problems of innovations in machine-building, as well as to present at the congress or by advertisements on the congress papers their innovative products, technologies, materials and services.

The program of the congress will also give you the opportunity for relaxation, amusements and becoming acquainted with the Black Sea charm.
